- Empfohlenes Desinfektionsmittel
- Bedingt empfohlenes Desinfektionsmittel
- Nicht zu empfehlendes Desinfektionsmittel

Diese Tabelle zeigt, welche Flächendesinfektionsmittel zur Reinigung unserer Objektbezugsmaterialien empfohlen, bedingt empfohlen oder nicht zu empfehlen sind.

Diese Empfehlungen beruhen auf den Labortests bzw. Materialprüfungsuntersuchungen der einzelnen Hersteller, sowie langjährigen Erfahrungen und deren erfolgreicher Einsatz.

Unbedingt sind die jeweiligen Anwendungshinweise, Produktinformationen und sonstigen mitgeteilten Informationen bzgl. der Desinfektionsmittel zu berücksichtigen.

Da wir auf Veränderungen der Inhaltsstoffe, der Rezeptur der Desinfektionsmittel, Schwankungen der Quantität und/oder der Qualität der Rohstoffe, sowie auf die Art der Anwendung keinerlei Einfluss haben, kann keine Gewähr unsererseits übernommen werden.

wirksam gegen SARS-CoV-2
